

**Power where you need it!**  
**MICRON ImperviPOWER 67 Series**  
**IP-67 Power Supplies**

Wet environments? Not a problem with Micron's new ImperviPOWER® 67™ Series power supplies. Featuring a vacuum encapsulated construction with industrially hardened connectors, these IP-67 compliant products allow the placement of control power supplies at or near the point of utilization instead of being limited to a remote cabinet or separate enclosure.

Save time, money and wire management stress with the new ImperviPOWER 67 product line from Micron ... the industry leader in power delivery solutions.

## TECHNICAL SPECIFICATIONS

CATALOG NUMBER	POWER RATING	INPUT VAC	OUTPUT VDC	EFFICIENCY RATING	AMBIENT TEMP RATING	PHYSICAL DIMENSIONS INCHES (MM)
MIP67-50-24	50W	90-264	24	>90%	-40C TO +60C	6.6 X 3.4 X 1.4 (166 X 85 X 35)
MIP67-100-24	100W	90-264	24	>90%	-40C TO +60C	6.6 X 3.4 X 1.4 (166 X 85 X 35)

ALL UNITS HAVE AN ISOLATION RATING OF 3.3KVAC

Unit complies with applicable standards including UL60950, EN60950, CSA 22.2, EN55011, EN6100-6, EN6000-6-2, -4-2, -4-3, -4-4, -4-5, -4-6, and -4-11

Connector interfaces are suitable for use with IP67 rated 7/8" straight/angled male/female connectors (Please contact Micron for specific details).
